The Division received your application for the above-noted permit change on December 21, 2007. Pursuant to R645-303-221, the Division completed the requisite 15-day Initial Completeness Review (ICR) and accepts this application for a technical review. The Division anticipates this review will be completed by January 31, 2008.

We would like to remind you to forward the earthwork yardages based upon digital contour mapping that you mention on page 12 of Appendix 5-22A, so that we can provide a detailed technical analysis of that information, as well.

If you have any questions, please call Priscilla Burton at (435) 613-3733 or Pamela Grubaugh-Littig at (801) 538-5268.
