Re: BLM Inspections of the South Crandall Mine - Federal Coal Lease UTU-78953

On July 23, 2009, the Bureau of Land Management (BLM) received a letter from UtahAmerican Energy, Inc (UEI) with the subject "South Crandall Mine Inspection Frequency" stating that: "UEI feels a quarterly inspection frequency is excessive given the current activity at the site...the mine is only entered for inspection purposes with the BLM..."

Because the mine is inactive, BLM will now change the inspection frequency to an annual basis. The next inspection of the mine will occur on or before the annual anniversary of the last inspection which occurred on July 2, 2009.

If you have any questions, please contact Steve Falk at: 435-636-3605.
