Hello All,

I wanted to let you know that JBR's biologist will be starting the macro sampling at Crandall this coming Wednesday the 16th. I will be meeting him at the bottom of the mine road at about 8:30 to show him the locations. Any of you are welcome to join us at that time, or stop in and observe the sampling later in the day, if you'd like. He is hoping to complete all three sites on Wednesday, but if that isn't possible, he'll also be there Thursday morning.

Regards,
Karla
