Subject: Revised Division Order to Address Mine Water Discharge, Genwal Resources, Inc.,
Crandall Canyon Mine, C/015/0032-DO08A, Task ID #3260, Outgoing File

Dear Mr. Shaver:

On April 22, 2008, the Division of Oil, Gas and Mining issued Division Order DO08A requiring Genwal Resources, Inc. to revise the current Mining and Reclamation Plan to include a plan for the discharge of post-reclamation mine water.

Due to urgent permitting priorities (unrelated to Division Order DO08), the Division granted two extensions to respond (July 2, 2008 and October 22, 2008). As of the date of this letter, it's my understanding that the Division Order has not been adequately addressed.

In order to facilitate the data collection necessary to formulate a final reclamation plan, the Division hereby establishes a final due date of August 1, 2010 for completion of Division Order DO08A. By this date, the plan must be approved or enforcement action may be necessary. Please be aware that the collection of data should be occurring now and throughout this interim period so that your plans can be in place by the August 2010 date.

If you have any questions, please contact James D. Smith (801) 538-5362 or Steve Christensen (801) 538-5350.

Sincerely,

John R. Baza
Director, Division of Oil, Gas and Mining
