Subject: RE: Crandall Canyon macro survey

Thanks Ingrid. I have asked Dana Marrelli to work with you, Karla, and all the other players to get this scheduled. How does spring runoff affect the timing of the study, or is it a factor?

Dave

Subject: Crandall Canyon macro survey

Dave-

Steve Christensen just let me know that you were wondering when to do the macroinvertebrate sampling this spring. By the time the agencies meet and decide on a plan of action for the stream clean-up (if any), it might be well into this summer. The snow is gone, so it would be ideal to do the macroinvertebrate survey as soon as possible and before any stream clean up is proposed. Let me know if you have any questions. Thanks
