Hello Kevin,

Here are the flow rates for the following sample dates:

1/28/2010	Old meter - would not read
2/23/2010	393
3/26/2010	481
3/30/2010	587
4/12/2010	Meter was not working
4/21/2010	598 add 30 gpm for recirculation

Let me know if you need anything else...

Thanks,

Dana

Subject: Mine water flows

Hi Dana,
Can you please provide the measured mine water flow rates for the following sample dates:

1/28/2010
2/23/2010
3/26/2010
3/30/2010
4/12/2010
4/21/2010

For those dates when sludge recirculation was occurring, can you please clarify whether the reported mine water flow rate includes the flow from the recirculation pump. If so, please provide the approximate recirculation rate so that we can get as accurate an estimate of the mine water flow rate as possible.

Thanks,
Kevin
