East Carbon, UT 84520

Dear Mr. Hibbs:

Subject: Renewal Application Received for UPDES Permit UT0024368, Genwal Resources, Inc.,
Crandall Canyon Mine

We received your UPDES permit renewal request information on May 12, 2010 for the above referenced facility located near Huntington, Utah. At this time, the renewal request appears to be complete and we are processing the permit for renewal. However, should questions arise I will be in contact to resolve any outstanding issues or concerns. During the permit renewal process, you may be required to perform a Level II Antidegradation Review as specified in *UAC R317-2-3*. The Antidegradation Review information and application are available on our web site at <http://www.waterquality.utah.gov/WQS/AntiDeg.htm>. Additionally, I will contact you to schedule a site visit and formal inspection later this summer.

If you have any questions, please contact me at (801) 536-4395 or via e-mail at jstudenka@utah.gov.

Sincerely,

Jeff Studenka, Environmental Scientist
UPDES IES Section
