DIV. OF OIL, GAS & MINING

Re: Crandall Canyon Mines, C/015/032
Division Order 10A
Future Correspondence Regarding Crandall Canyon Mine

Dear Mr. Haddock:

As you are aware, the Division has issued an Order (DO10A) to Genwal Resources, Inc. regarding the mine water discharge at the Crandall Canyon Mine. The company has submitted a legal challenge to the assertions of DO10A, and will most likely continue to challenge the Division Order in the future through the appeal process, as needed. Therefore, I request that any and all future correspondence from the Division to Genwal Resources regarding any matter related to the Crandall Canyon Mine involving water discharge, water discharge treatment, bonding and/or final reclamation, be directed through our legal counsel, Denise Dragoo, Esq. of Snell and Wilmer LLP, with copy to me. This will help keep our counsel informed as we proceed with the appeal, so they may properly coordinate the subsequent associated interactions and correspondence. It will also allow our legal counsel the opportunity to advise the company as to the validity of the regulatory requirements for responding to various Division deficiencies in the future.

If you have any questions or comments regarding this request please contact me at 435 888-4017.

Sincerely,

David Shaver
Resident Agent
