RE: Request for Extension to Respond to Deficiencies—Mid-Term Review, Genwal Resources, Inc., Crandall Canyon Mine, C/015/0032, Project #3614

Dear Daron:

On behalf of Genwal Resources, Inc. (“Genwal”), we respectfully request an extension of time beyond December 18, 2010, to respond to the deficiencies listed for Task No. 3614, Mid-Term Review, as follows:

R645-301-121.100:

Genwal requests until February 1, 2010, to respond to this deficiency to update the MRP and remove text from Appendix 2-4.

R645-301-800:

During the pending Board review of Division Order 10-A, the Division has agreed to stay issues related to post-mining treatment and bonding of water discharge. Genwal requests that the Mid-term update of cost estimates for demolition, backfilling and grading and revegetation work associated with the disturbed area also be held in abeyance pending Board review. These cost estimates cannot be finalized until the Board has rules on the post-mining treatment and bonding requirements of DO-10A.

We appreciate your consideration of this matter.

Very truly yours,

Denise A. Dragoo
