---

Quick update on the East Mountain reclamation work. I just spoke with Mr. Shaver and he indicated that Scamp is '*tentatively*' scheduled to begin the remaining reclamation work on October 25th, 2010. Their hope had been to begin today; however, the accountants for Murray Energy identified an issue with the requisition order. According to Mr. Shaver, that issue was ironed out last Friday and now they just need Mr. Murray's signature to begin the work.

I'll keep you posted.

Steve
