---

Dave,  
Yesterday at Crandall Canyon I observed a chemical tote stored in the emergency spillway of the sediment pond - see attached photo 04192010 032. The only label on the tote reads "hydraulic fluid concentrate" (photo 04192010 041). Please remove this tote from the sediment pond spillway and store in an appropriate location.

Photo 04192010 032 also shows a 4-in PVC pipe and roof bolt near the sed pond outlet structure. Are one of these the surveyed sediment clean out markers? Please confirm.

Thanks,  
Kevin

MINE SAFETY AND HEALTH ADMINISTRATION

FLUID IS SUPPLIED READY FOR USE. DO NOT MIX WITH WATER. FOLLOW MANUFACTURER'S INSTRUCTIONS IN HANDLING AND USAGE. FOR HEALTH AND SAFETY INFORMATION ON THIS PRODUCT CONSULT THE MATERIAL SAFETY DATA SHEET. AVOID PROLONGED SKIN CONTACT. PROTECTIVE CLOTHING AND SHOES SHOULD BE WORN WHEN SPLASHING CAN OCCUR.

**CAUTION:** Misuse of empty containers can be hazardous. Empty containers can be dangerous if used to store toxic, flammable or reactive materials. Cutting or welding of empty containers might cause fire, explosion or toxic fumes from residues. Do not pressurize or expose to open flame or heat. Keep container closed and drum lugs in place. Do not reuse before commercial cleaning.
