Subject: Mine Water Discharge Monitoring, Genwal Resources, Inc., Crandall Canyon Mine, C/015/0032, Task ID #3605

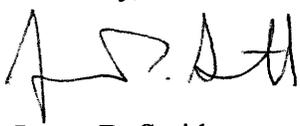

Dear Mr. Shaver:

The Division of Oil, Gas and Mining (the Division) have completed its review of the aforementioned amendment and have recommended conditional approval. Final approval will be granted when the following conditions have been met:

- 1) Receipt of eight complete clean copies prepared for incorporation.
- 2) Please include page 7-37 of the currently approved Mining and Reclamation Plan (MRP). Page 7-37 contains Table 7-8, *Abbreviated Surface Water Analysis List*. It appears that this page was inadvertently omitted from the initially submitted amendment. Based upon the pagination of the amendment, it should now be page 7-38.

Once the conditions have been met, a stamped incorporated copy of the approved plans will also be returned to you for insertion into your copy of the Mining and Reclamation Plan. Please submit no later than September 30, 2010.

If you have any questions, please call me at (801) 538-5262 or Steve Christensen at (801) 538-5350.

Sincerely,

James D. Smith
Permit Supervisor
