Subject: Crandall Canyon Mine: Pre-treatment samples
Attachments: Mine Flows.xls; UPDES Spreadsheet.xls

Hi JD,

I was going through the Crandall plan and came across something that Dana may or may not have told you. In the past, Dana (as required by the MRP) would e-mail the analytical results from the pre-treatment mine flows at Crandall.

The information is outlined on pages 11 and 12 of Appendix 7-65. Basically, it just says that the samples will be collected and monthly and provided to the Division via e-mail. The list of parameters is provided as well.

That said, the last e-mail that Dana sent had the data through September of 2011. I've attached her e-mail and the spreadsheets she used for you to review. The monthly e-mails are in addition to entering the data into the database every quarter.

If you would, please send the October, November and December data when you get a chance. If you have any questions, please give me a call.

Thanks,
Steve

Subject: Crandall Canyon Mine September UPDES

Hello,
I have attached the Crandall Canyon Mine Flows and also the September UPDES results.
Please let me know if you have any questions.
Thank you,

Dana Marrelli
