Subject: Determination of Administrative Completeness for Construction of Burma Evaporation Basin, Genwal Resources, Inc., Crandall Canyon Mine, C/015/0032, Task ID #3997

Dear Mr. Shaver:

The Division has completed a review of the information you submitted on January 12, 2012 revising the Crandall Canyon Mining and Reclamation Plan (MRP) to include the construction of the Burma Evaporation Basin. This application is considered to be administratively complete. A technical review of your plan has been initiated. Technical deficiencies, if any, will be forwarded to you as reviews are completed. The Division will also coordinate with other agencies and incorporate their comments into our review process. Issues raised will need to be resolved prior to final approval of the permit revision.

At this time you must publish a Notice of Significant Permit Revision for changing the Crandall Canyon MRP to include the Burma Evaporation Basin as required by R645-300-121. A draft copy of the publication notice should be sent to the Division so that it can be checked for accuracy. Remember, once okayed, the application notice must be published at least once a week for four consecutive weeks and the affidavit of publication will need to be submitted to the Division as soon as it is available.

You must also insure that a copy of the application is on file at the Emery County Courthouse. The Division will complete a technical review, which must find that your application is technically complete. We look forward to working with you throughout the permitting process. Please call if you have any questions.

Thank you for your help in the permitting process.

Sincerely,

Daron R. Haddock
Coal Program Manager
