Hi Jay,

I apologize for not getting this information to you sooner. The DEQ-Solid and Hazardous Waste representative that I've been speaking to (relative to the Burma Pond) is Ralph Bohn (801) 536-0212 (rbohn@utah.gov).

He'll be able to provide you with much more specificity as to what his group needs to get the Burma Pond squared away. Let me know if I can help with this in any way.

Thanks,
Steve
