Subject: Incomplete Application for Permit Renewal, Task ID #4248, Genwal Resources, Inc.,
Crandall Canyon Mine, C/015/0032

Dear Mr. Marshall:

The Division received your application for renewal of the Crandall Canyon Mine permit on January 15, 2013. An initial review of the submitted information indicates that the application is **not** administratively complete.

The proposed public notice does not adequately describe the Crandall Canyon Mine Permit area. There are some discrepancies between the legal description provided in the notice and the actual permit area. The map which was provided to show the five year mining sequence does not match the permit area either. There are also some questions regarding the bond summary sheet. The \$720,000 bond for water treatment is not included.

The application is being returned to you for your further attention. Please correct the deficiencies and resubmit the entire application at your earliest convenience. Please remember that the renewal process requires public notice and comment so a timely response is highly recommended.

Sincerely,

Daron R. Haddock
Permit Supervisor
