ADMINISTRATIVE OVERVIEW

Genwal Resources, Inc.
Crandall Canyon Mine
Five Year Permit Renewal
C/015/0032
Emery County, Utah

April 15, 2013

BACKGROUND

Crandall Canyon Mine is located in the Huntington Canyon and operated by Genwal Resources, Inc. Mining was originally room and pillar and converted to longwall mining in 1996. Mining continued through August 6, 2007, when a large mine collapse occurred resulting in fatalities and unstable mining conditions. The mine has been idled since that time.

Mining operations originally began in the Hiawatha seam in 1983 after permit approval from the Division of Oil, Gas & Mining (May 13, 1983) and the Office of Surface Mining (November 1982). The permit area consisted of Tract 1 of federal lease SL-062648, a surface fee lease and U. S. Forrest Service special use areas. On February 12, 1987, Genwal was given a permit to mine in Tract 2 of lease SL-062648. AS part of the permit renewal process, Genwal was required to resubmit the Crandall Canyon MRP, combining the two previous plans for Tracts 1 and 2, and updating the plan as a whole. That permit was renewed on June 14, 1989 and the date for it to expire was set at May 13, 1993. A revised permit was subsequently issued on July 27, 1989. The second revised permit was issued on August 8, 1990 and a subsequent revised permit was issued on April 22, 1991. This permit was renewed on May 13, 1993, May 13, 1998, May 13, 2003, May 13, 2008 and last revised on November 9, 2012 when the Burma pond area was included in the permit.

A federal lease was added, known as LBA #9, and approved on November 3, 1994. This mining and reclamation permit was transferred from Genwal Coal to Genwal Resources, Inc. on March 23, 1995. A culvert installation was approved on June 27, 1997 and a subsequent stockpile and sediment pond associated with the culvert installation was approved on July 30, 1997 and another revised permit issued. A 50-acre incidental boundary change was approved on September 30, 1999. An 880-acre federal lease was added in 2003 and 160 acres of federal lease were added in 2004.

PERMIT RENEWAL:

Genwal Resources, Inc. made application to the Division of Oil Gas and Mining for a five year permit renewal for the Crandall Canyon Mine on January 15, 2013. The application

was determined to be administratively incomplete on January 22, 2013 and returned to the operator on the same date. The application was resubmitted on January 30, 2013 and determined to be administratively complete on February 1, 2013. This renewal encompasses the same permit area as currently approved in the permit issued May 13, 2008 plus approximately 7.32 acres added during the last permit term for construction of the Burma evaporation pond. The permit was revised on November 9, 2012 for inclusion of the evaporation pond.

Public notice for this permit renewal was published in the Emery County Progress on February 19, 26 and March 5, 12, 2013.

The 30-day public comment period ended on April 11, 2013. No comments were received.

ANALYSIS

The application for permit renewal was in a format conforming to the currently approved Mining and Reclamation Plan requirements. The Company was able to complete the public notice in the required time frames. The Division acknowledges that pursuant to R645-300-154, the original permit issued by the Division and subsequently renewed carries with it the right of successive renewal within the approved boundaries of the existing permit in accordance with R645-303-230. An Applicant Violator Systems check was conducted on April 10, 2013. No outstanding violations were located on the system.

RECOMMENDATION

Approval for this permit renewal is recommended.
