Hi David,

Quick question...have you sent over our March Crandall Canyon samples? If you have, could you please e-mail them to me? It's possible that they might have been missed.

If you haven't sent them, it'd be great if we could get those as soon as possible. We're in the process of putting an update report together for our Board.

Give me a call or shoot me an e-mail when you get a chance.

Thanks,
Steve

David,

Thanks for getting back to me so fast. We did receive a lab report on March 21st. The report was for samples collected on February 26th. I'm trying to track down the reports for our March sampling event. Do you know when those may have gone out? If you do, I might be able to track them down on our end. April samples should be in your shop as well.

We get so many things in the mail every day around here, it might be easier if the reports had my name on them instead of 'Partner'. That way our mail folks would know to send them directly to me. In the past, I believe the lab reports were sent directly to Ken Hoffman. Ken no longer works here.

Clear as mud? Give me a call or e-mail me and we can discuss it further.

Thanks for your help with this.
Steve

It looks like your March reports were mailed on 3-20. The address we have is 1594 W North Temple. I will let the chemistry department know that you need to have them resent.

David
