Inspection Memo  
to Coal File

RE: Garfield Coal Company  
Davies Mine  
INA/017/008  
Garfield County, Utah

On September 15, 1982, Ken Wyatt, Sandy Pruitt, John Whitehead, and Joe Helfrich of the Division accompanied by Jodie Merriman of OSM, attempted to inspect the Davies Mine facility located in section 36, T. 36S, R. 2W., on the Pawn Lake, Utah quadrangle.

The mine is located approximately 3.2 miles up a one lane dirt road. The mine itself, was not inspected due to the washed condition of the road about 2.5 miles up. At this point, a gully had formed, washing out the road approximately six feet deep by twenty feet wide. There was no evidence of any recent activity in this canyon.

It is recommended at this point that this mine be inspected about every six months as the owners have expressed interest in the Utah SOAP program, in March 1982.
