Dana,

Could you respond to Terri Peterson as well? Maybe a form letter would do? Please let me know.  
Thank you.

**SUBJECT:**

The issue is 300 coal trucks a day, 24 hours a day 365 days a year going up on down Scenic Highway 89 from Alton. This will impact every business and all the tourism on this highway. Not to mention the national parks and the surrounding area. There are people who have invested millions of dollars in their businesses to be ruined by the congestion, impact on our highways and our scenic highways. It will destroy all of the tourism and ranching that this area depends on along with the natural streams. People come to this area to visit the beautiful national park and enjoy the historic portions of this area. That amount of coal truck traffic will destroy the tourism, closed down most of the businesses and impact the roads tremendously. I and the rest of our surrounding communities want to know what you intend to do about people losing their businesses, homes and the tourism that this area depends on. I look forward to hearing from you.
