Priscilla/Suzanne,

I have reviewed item D of the midterm for the Coal Hollow Mine Task 4317 as far as outstanding violations. There are no outstanding violations for this mine site. My review is complete.

Thanks,  
Karl

4317 Mid-term Review Team,

The feedback that I got is that travel on April 29 with an inspection on April 30 will be acceptable. I will go ahead and confirm April 30 with Kirk.

Thanks!

Priscilla

Fellows,

I just became aware that a review team hadn't been assigned to this task. So I just assigned one. You are it!

This is an opportunity to address the issues that are being tracked in the "housekeeping" folder (Ken, Suzanne, me). In addition to the "housekeeping" issues, please refer to the mid-term initiation letter that is attached to this email string for an outline of the review. With regard to the letter's outline: Joe, Suzanne and I will review item A, (especially the biology annual review commitment.) I will review item B. Ken and Pete will review item C. Karl and Suzanne will review item D. All of us are assigned to item E.

We need to take a group visit to the site to evaluate the progress of mining and reclamation as compared with the MRP. Are you available April 29 & 30 or May 6 & 7 to go to the site?
