<i>In accordance with the provisions of the Utah Coal Mining and Reclamation Act, Utah Code Ann. § 40-10-1 et. seq. (Act), the above referenced Citation is:</i>		
<input checked="" type="checkbox"/> Modified as follows: a) The abatement date for the submittal of comprehensive plans is extended to August 18, 2013. b.) The acreage figure of 318 acres stated in the NOV is incorrect. The revised acreage is 357.5 This figure was determined by taking the total acreage of 1200 minus 146 acres of treatment completed = 1054 divided by 4 years = 263.5 + the 94 acres that were not mitigated in 2012 = 357.5 Reason for modification: a.) The abatement date is extended to allow for the scheduling of an informal conference. b.)The increase in acreage is based on the recent change in mining sequence from 5 years to 4 for the life of the mine. The acreage needed may increase depending on when the mitigation needs to be completed but will not exceed the total required mitigation of 1200 acres. The Division has taken the request to vacate the NOV under advisement and requested ACD to submit a comprehensive plan for the balance of the mitigation acreage as consideration for dismissing the NOV. The NOV will be held in abeyance until the Division renders a decision.
