DIV. OF OIL, GAS & MINING

Subject: **Alluvial Valley Floor Report, Alton Coal Development, LLC, Coal Hollow Mine, Kane County, Utah, C/025/0005**

Dear Mr. Haddock,

Alton Coal Development, LLC (ACD) is providing errata sheets for the "Alluvial Valley Floor Field Investigation in the North Private Lease" submitted in July. The errata list is for soils information in the AVF report. These were clerical errors that were identified during the process of estimating salvage depths for each soil profile. These corrections do *not* change the findings of the report.

This list puts the information in appendices, D, I, and L in agreement.

Please find enclosed 6 (six) copies of the report for review. Please do not hesitate to contact me if you have any questions 435-691-1551.

Sincerely

B. Kirk Nicholes  
Environmental Specialist

The following errors have been identified within the soils portion of the *Alluvial Valley Floor Investigation in the North Private Lease*. These are clerical errors that have been identified after the report was printed. They *do not* change the findings of the report.

### Errata for Appendix L

The following soil family names need to be changed in appendix L. The family names (Current Taxonomic Name) were not printed correctly in the output from the Pedon PC database software that was used for data entry. The taxonomic classifications printed for each of these profiles are correct. There is a "save and import" process within the database that needs to be followed specifically for updates to "Current Taxonomic Name" and "Current Taxonomic Classification" entries. These updates were already incorporated into Soils Map 1 in Appendix I.

Page	Soil Profile	Change <i>Current Taxonomic Name</i>	
		From	To
L-7	12AS003	Wimmer similar	Atlatl similar
L-54	12AS020	CCC family	CCC similar
L-67	12AS024	Vigil taxadjunct	DDD family
L-76	12AS027	Sideshow family	Wimmer family
L-80	12AS028	CCC family similar	AAA family
L-96	13AS01	AAA family	BBB family
L-113	13AS07	Flugle	Boxcanyon similar
L-145	DP-11	Wimmer family similar	Bobknoll family
L-152	DP-14	Wimmer family	Bobknoll family
L-154	DP-15	Teromote family similar	Teromote family
L-184	DP-27	AAA family	CCC similar

### Errata for Soils Map 1, Appendix I

Soil profile location 12AS010 is Bobknoll. This is the *Current Taxonomic Name* listed on page L-23.

### Errata for Soils Map 2, Appendix I

The following deletions need to be made in the legend in order for the Map Unit names to be the same as listed in Soils Table 3 on page D-6.

- Delete AAA family from map unit E name;
- Delete BBB and CCC from map unit G name (these are minor components and not listed in the map unit name).
