2. Beginning at the mid-point of the category, the Assessment Officer will adjust the points up or down, utilizing the inspector=s and operator=s statements as guiding documents.

Is this an EVENT (A) or HINDRANCE (B) violation? Event

A. EVENT VIOLATION (Max 45 pts.)

1. What is the event which the violated standard was designed to prevent?

Water Pollution and Environmental harm

2. What is the probability of the occurrence of the event which a violated standard was designed to prevent?

<u>PROBABILITY</u>	<u>RANGE</u>
None	0
Unlikely	1-9
Likely	10-19
Occurred	20

ASSIGN PROBABILITY OF OCCURRENCE POINTS 20

PROVIDE AN EXPLANATION OF POINTS:

*****According to the information in the inspector statement** “Alton Coal Development, LLC (ACD) failed to properly construct and maintain Ditch 1 and Ditch 4. Surface runoff from snow melt breached both ditches in early March, allowing suspended solids to leave the Permit area untreated. Additionally, the Permittee failed to properly maintain best technology currently available at the outlet of Ditch 1 and at the end of Lower Robinson Creek reconstruction. During the runoff event, these sediment controls did not properly treat surface runoff and prevent additional contributions of suspended solids to streamflow outside the permit area”.

3. What is the extent of actual or potential damage? RANGE 0-25

In assigning points, consider the duration and extent of said damage or impact, in terms of area and impact on the public or environment.

ASSIGN DAMAGE POINTS 12

PROVIDE AN EXPLANATION OF POINTS:

***** According to the information in the inspector statement,** “It is not possible to quantify the full extent of the off-site impacts as the runoff event was not observed at the time and water samples were not collected by the Permittee. However; based on field observations of sedimentation deposited outside the permit area, it’s reasonable to conclude that additional suspended solids were contributed to stream flow outside the permit area. Deposited sediment plumes were visible outside the permit area in several areas”.

B. HINDRANCE VIOLATION (Max 25 pts.)

1. Is this a POTENTIAL or ACTUAL hindrance to enforcement? Actual RANGE 0-25

Assign points based on the extent to which enforcement is actually or potentially hindered by the violation.
