Hi Denise,

I hereby vacate NO20151 written by Joe Helfrich to Alton Coal on 6/16/2015. The reason for doing so is that I have verified that Alton did no more work than had previously been authorized verbally by myself. I allowed them to do face-up work on the underground mining in a previous meeting.

I would ask that you please request a conference for NO21154.

Please let me know if there are any other enforcement issues I have not covered.

Thank you ,
Dana
