Hi Kirk,
I have looked at the revised notice and it looks okay to me. Please go forward with the publication in the Southern Utah News. You will need to submit an Affidavit of Publication to us as soon as it is available. We are still trying to schedule the bond release inspection. Would you be available on September 29th or 30th? Or would October 6th, 7th or 8th work better? Please let me know and I will start scheduling it. Thanks. Daron Haddock

Hello Daron,

Attached is the revised bond release application with the changes to the legal description that you had pointed out. The public notice has been submitted the Southern Utah News for publication for four consecutive weeks beginning this Thursday. If there are no other changes I will proceed with the publication.

Thank You

Kirk

Subject: Phase I bond release application.

Kirk and Drew,

I have cursorily reviewed the Phase I bond release application for Alton Coal. There were a couple of problems with your legal descriptions. Area 1 seems to be okay. Area 2 was described as the E1/4 of Section 30. Typically there is no east quarter of a section. It would be the NW 1/4 or NE 1/4 or SW1/4 or SE1/4. You might have an E1/2 of the section or the E1/2 of the E1/2, but not an E1/4.

Area 3 also has a faulty description. It is described as the NE1/4 of NE1/4 of Section 30. As I see it, the area is in Section 19, not in section 30.

With these changes, I think you are okay to go to publication. We are trying to schedule a time to do the inspection. We are pretty much booked until the last two weeks of September or the first week in October. Do you have any preference? Perhaps if we wait until October, we can add the next bond release area to the bond release inspection and we could kill two birds with one stone?

Thanks. Daron

Alton Coal Development, LLC (“ACD”) files this application with the Utah Division of Oil, Gas and Mining for Phase 1 Bond Release for 100.342 acres of the Coal Hollow Mine, C/025/0005.

ACD has met the requirements of the Coal Hollow Mine (“CHM”), Mining and Reclamation Plan (“MRP”) and the Utah Coal Rules as to the backfilling and grading standards (refer to Chapter 5, section 553) for Phase I Bond Release (refer to R645-301-880.300). Pre-mining overburden chemical analysis and a discussion of the potential effects on plants growth and water quality are found in Chapter 6 Appendix 6-2, Chapter 2 Section 240 and Chapter 7 Section 728 respectively of the CHM MRP. Pre-mining subsoil chemical analysis and proscribed replacement depths are found in Chapter 2 Appendix 2-1 Section 5 of the MRP. Phase II or Phase III requirements such as topsoil placement dates, chemical analysis or established plant growth are not considered as part of this Phase I release. No sediment control structures have been included as part of this release, and all bond associated with these structures remains unchanged. This application for Phase 1 bond release is for the following described areas of the Coal Hollow Mine (“Reclaimed Coal Mine”):
