To: OGMCOAL DNR <ogmcoal@utah.gov>, Daron Haddock <daronhaddock@utah.gov>, Priscilla Burton <priscillaburton@utah.gov>, Keenan Storrar <kstorrar@utah.gov>, Andrew Christensen <drew@altoncoal.com>, K Nich <knicholes@altoncoal.com>, Joseph Helfrich <joe Helfrich@utah.gov>

Drew,

As we discussed on the phone, we need the following information to address concerns raised by a letter to the Division:

-Cross sections along the southern length of the County Road and Dames access that show the backfill grade in relation to the original grade.

-Calculations of the culvert in the Dames access road meet the applicable regulations R645-301-742.333

The map attached has the areas requested for cross sections highlighted in Red.

The Division feels that the above cross sections and culvert designs are all that will be required to show that the mine has followed applicable R645 regulations and may receive bond release on the areas.

The concerns raised in the letter will need to be addressed before we can proceed with the bond release application, therefore, we are requesting this information ASAP. If contacting Dan Guy directly will assist in rushing the information, let us know and we will reach out to him.

Please call me if you have any further questions or concerns.

Cheryl Parker, M.S., P.E.

Mine Engineer
