Utah Coal Regulatory Program

November 22, 2016

PID: C0250005
TaskID: 5311
Mine Name: COAL HOLLOW
Title: SAGE GROUSE MITIGATION UPDATE

Operation Plan

Fish and Wildlife Protection and Enhancement Plan

Analysis:

The amendment meets the State of Utah R645-301-342 requirements for a fish and wildlife enhancement plan.

The amendment is simply an update of the table outlining offsite (compensatory) mitigation projects located in Chapter 3, page 3-31. The table is updated to include recent sage-grouse mitigation project funded by ACD and implemented by UDWR through WRI Project 3876. The addition of this project brings the off-site mitigation acreage for the North Private Lease to 591.79 acres.
