Hello all,

I have spoken with Joe Helfrich, Daron Haddock and John Baza and am aware that Alton has done much to comply with Permit Condition 6 for the North Lease and all agencies external to OGM are satisfied with the plan. I am extending the time to get this wrapped up by two weeks to March 24 to give the Division time to review and work with Alton on any needed changes (should be minor) and get it incorporated into the MRP. In the interim you are authorized to continue mining according to your permit.

Thank you,
Dana
