Based on the prior continuation from John Baza, we cannot extend this NOV any further. Daron and I do not think all of these deficiencies are in line with the rules and those that are do not warrant an FTACO. We are going to terminate the NOV and the few small changes that are legitimately needed can be handled in a separate task. We are approving the changes for NOV 21164 please submit clean copies and we will incorporate them after termination.

Thanks,
Dana

Suzanne,

Would you prepare a typical deficiency letter for Task 5261 for Daron's signature upon his return? (In the interim, to keep the ball rolling, I sent Kirk a draft of my findings (attached).

I am not sure how the Division will handle the extra time for responding to deficiencies.

Thank you,

Priscilla

I have completed my review. The main concept will work, but there are deficiencies.

Hello Priscilla,

The Division received the above-noted application on 8/17/16. A copy has been placed in the work group folder for review.

I believe you are the only reviewer left on this one.

The final extension letter John Baza sent out stated that the due date would be 8/31/16.

Thanks Priscilla.
