The information provided on Dwg 2-4 and 5-47 meet the requirements for incorporation into the MRP and final approval of Task 5291. An email from Drew Christensen on 12/15/2016 (sent to file) confirms the stockpiled volumes of topsoil and subsoil stated on the drawings.

My queue does not have Task 5291 anymore, so this email will suffice as my review.

Hello Priscilla,

Kirk submitted the revised maps your requested: Dwgs 2-4 and 5-47. I have placed them in the work group folder for Task #5291 in a dated folder 12142016.

Thanks
