Re: Southern Utah Fuel Company Mine #1 Drainage and Sediment Control

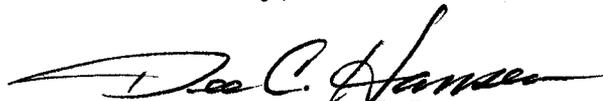

Dear Mr. Daniels:

This office has completed its review of the construction plans for the above mentioned sedimentation pond. It is my opinion that the preliminary plans are satisfactory and unless the design changes considerably no additional submittals are necessary. I would request that:

1. We are supplied with the final construction drawings.
2. We be notified of the start and completion of construction.
3. The final drawings show the location of the spillway and that Pipe #4 be connected to the diversion structure.

Please continue to coordinate the progress of this project with Mr. Bob Morgan of my staff.

Sincerely,

Dee C. Hansen, P.E.
State Engineer

Re: Southern Utah Fuel Company Mine #1 Drainage and Sediment Control

Dear Mr. Daniels:

This office has received and reviewed the Addendum transmitted to this office October 31, 1979. The plan is acceptable to this office. The only comments we have are on the letter sent to you October 29, 1979. No additional information, other than requested in the letter, is needed.

Sincerely,

Dee C. Hansen, P.E.
State Engineer
