Re: Southern Utah Fuel Company
Convulsion Canyon Mine

Dear Darrel:

Thank you for the reminder to provide you with more information on the Division's position relative to the spoil pile at the Convulsion Canyon Mine.

The Division's position in the matter at this time is that since no firm plans for the fill are in hand, a preference as to specific design can not be given at this time. However, it is the position of the Division that no alternatives should be overlooked in examining the permit area or adjacent areas to be used as a spoil disposal area. Once the additional alternatives are examined, the Division's position will at least be narrowed so that a preferred design can be utilized by Southern Utah Fuel Company. In the meantime, if you have any questions of this Division, please contact us.

Sincerely,

Ronald W. Daniels
