Dear Mr. Feight:

On this date fourteen (14) sets of an Amendment to the Mining and Reclamation Plan for the Southern Utah Fuel Company Mine and revised Mining Plan Application were delivered to your office. This number, as previously agreed upon, included copies to be distributed to all other relevant state and federal agencies.

This amendment represents an extensive revision to the original Southern Utah Fuel Company Mining and Reclamation Plan as filed on February 12, 1977. This revision specifically addresses the deficiencies identified by OSM during their initial review and also updates the application to reflect technical considerations based on experience with our recently approved Skyline M&RP.

Coastal staff members are available to assist as needed in the review process for this application. Your continuing cooperation is appreciated.

Sincerely,  
*Vernal J. Mortensen*
