RE: Subsidence Report  
Convulsion Canyon Mine  
ACT/041/002  
Sevier County, Utah

Dear Kerry:

The Division is in receipt of a copy of your letter to Don Crane dated December 11, 1980 regarding SUFCO's interim subsidence report and distribution procedures. Please be advised that all future mine plan information and correspondence relative to such, should be channeled through the Division of Oil, Gas and Mining office.

However, in instances when the amount of materials being sent is great, the number of copies required by federal agencies may be sent directly to the Office of Surface Mining for distribution concurrently with the original and required number of copies being sent to the Division for distribution to the appropriate state agencies. This procedure will, hopefully, save time and money, reduce the amount of handling, and keep all agencies informed.

If you have any questions concerning this procedure, please give me a call.

Sincerely,

JAMES W. SMITH, JR.  
COORDINATOR OF MINED LAND DEVELOPMENT
