RE: Revised Mine Layout
SUFCO
Convulsion Canyon Mine
Sevier County, Utah
ACT/041/002

Dear Mr. Mortensen:

The Division has reviewed Southern Utah Fuel Company's request to alter its present mine layout to include two additional panels (5L and 6L, 2E) in order to maintain production.

The Division foresees no problem with this modification as long as mining is conducted according to the Amended Mining and Reclamation Plan Permit Application dated November, 1980, and there are no additional surface disturbances or environmental impacts.

Approval to extend 4N, and to extend 2E and 3N to the outcrop is hereby granted by the Division of Oil, Gas and Mining, conditional upon satisfactorily addressing any concerns raised by the U. S. Geological Survey and the Office of Surface Mining.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF MINED
LAND DEVELOPMENT
