RE: List of Remanded Regulations
Convulsion Canyon Mine
ACT/041/002
Sevier County, Utah

Dear Kerry:

As we discussed on March 2, 1981, those regulations which were noted in the Federal Register publication of February 18, 1982, are the only revised regulations which have been made to Utah's program thus far.

The enclosed list entails those regulations which were remanded or suspended from OSM's program. The Board of Oil, Gas and Mining also remanded these regulations from Utah's program in the spring of 1981.

At this time, there is a cooperative effort between the states and OSM in Washington on the proposal of new regulations which would replace those currently in use at both the Federal and State level. Until a decision is reached on the proposed regulations, there will be no further efforts to revise these remanded and suspended regulations to avoid duplication of efforts.

Sincerely,

SALLY KEFER
RECLAMATION HYDROLOGIST
