RE: Minor Modification
So. Utah Fuel Company
Convulsion Canyon Mine
ACT/041/002
Sevier County, Utah

Dear Mr. Klein:

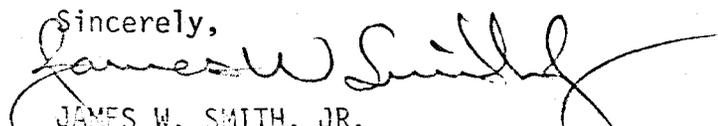

Enclosed for your information is a copy of a request for a modification to an interim Mining and Reclamation Plan recently received at the Division of Oil, Gas and Mining from Southern Utah Fuel Company (SUFCO). This was determined to be a minor modification as per the criteria described in UMC 788.12 as follows:

1. No increase in size of the area disturbed will occur, since the structures will be built on an existing mine pad;
2. No engagement of operations will occur in hydrologic regimes other than those originally approved by the Division;
3. Additional areas will not be used for coal storage, refuse dumps, tailings ponds, sedimentation ponds, culm banks, or transportation facilities;
4. No other significant departures from the method of conduct of mining or reclamation operations will occur.

This minor modification was conditionally approved by the Division on December 14, 1982. A copy of the approval letter is also enclosed for your information.

If you have any concerns regarding this, please contact me or Susan Linner of my staff.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF MINED LAND DEVELOPMENT
