RE: Raptor Protection for Power Poles

Dear Mr. Wyatt:

Enclosed is the information you requested in our conversation of January 11, 1983, concerning the status and design of the raptor protection for power poles on the SUFCo permit area. Raptor perches have been installed on all of the SUFCo power poles on the permit area. The raptor perches were designed according to: Suggested Practice for Raptor Protection on Powerlines and REA Bulletin 61-10. Exhibit 4 from the suggested practices report and a drawing showing the design and dimensions of the SUFCo raptor perches are enclosed.

If you have any questions about this matter, please call me at 637-4880.

Sincerely,

*Mike Davis*
