Dear Ms. Linner:

Re: SUFCo Mining and Reclamation Plan  
July, 1983 Addendum

Please be advised that one page (58d) was inadvertently omitted from the July, 1983 SUFCo Mining and Reclamation Plan addendum delivered to the Division of Oil, Gas and Mining and the Office of Surface Mining on July 8, 1983. Also, the preceding page (58c) incorrectly states certain commitments which the Applicant has previously incorporated into the mining operation. I am, therefore, forwarding to you three photocopies of each of the two pages as revised and approved by the Applicant. To eliminate any confusion created by these errors, please remove and destroy page 58c filed on July 8, 1983 and insert the replacement pages (58c & d) in place of the page removed.

By separate letter, I am notifying the Office of Surface Mining of the error. Additional replacement pages will be forwarded as enclosures to the letter for insertion in the SUFCo mining and reclamation plans on file with OSM.

Very truly yours,

Kevin L. Yocum
