Salt Lake City, Utah 84114

Dear Susan:

Thank you for your telephone call on November 15, 1983 explaining OSM's modified preferences with respect to topsoil substitutes. As a result of their position, we will probably respond to Evertt Hooper's proposed topsoil stipulations by changing our final reclamation commitment so that use of material from Sevier Valley will not be required.

Instead, we will proposed to use onsite fill material acquired during final reclamation to cover the disturbed areas after removing or burying the contaminated top surface material presently in place.

This revised topsoil commitment will be submitted along with responses to the other 13 stipulations before December 2, 1983.

Yours very truly,  
SOUTHERN UTAH FUEL COMPANY

Kerry A. Frame  
Chief Engineer
