RE: Convulsion Canyon Mine
ACT/041/002
Sevier, Utah

Dear Mike:

Enclosed is some information I thought you would find useful. There is a list of the regulations which were marked with an asterick in the September 20, 1982 edition of UMC and indicated as suspended or remanded, but which have since been determined to be still in effect. As promised, I have also enclosed a couple of forms that could be used for the pond inspections required by UMC 817.46 (t). These will give you an idea of the type conditions that should be inspected and reported on and may present a format for use in developing your own inspection forms.

Happy Thanksgiving,

A handwritten signature in black ink, appearing to read 'Sandy Pruitt'.
