RECEIVED

MAY 24 1984

DIVISION OF OIL
GAS & MINING

Dear Sue:

I am returning the copy of Southern Utah Fuel Company's (SUFCO) response to stipulations 817.56 (1-5) and 817.111-.117 (1) of DGOM's December 22, 1983 Draft Final Technical Analysis for the Convulsion Canyon Mine.

I noted in your cover letter that an immediate response was necessary if I had any concerns with the response. I have no concerns but, please accept my apology for not having replied prior to April 20. I was not able to give it my attention until now. I hope that you assumed my lack of response indicated agreement and were able to meet your deadline.

I appreciate your response in having the seed mixture modified, it is much more acceptable and I feel SUFCO has been gracious in their willingness to conform.

Thank you very much for your cooperation and patience.

Sincerely,

Wesley C. Shields
