Attention: Southwestern Regional Office

RE: Stipulation Response
Southern Utah Fuel Co.
Convulsion Canyon Mine
ACT/041/002, Folder #2
Sevier County, Utah

Dear Mr. Day:

Enclosed is one copy of Southern Utah Fuel Company's (SUFCO) response to stipulations 817.56(1-5) and 817.111-.117(1) of the Division's December 22, 1983, Draft Final Technical Analysis (TA) for the Convulsion Canyon Mine. This also responds to your review letter of October 24, 1983.

The Division staff will review this response for technical adequacy immediately. If it is found to be adequate, the TA will be adjusted accordingly and a Final TA will be sent to OSM before April 20. If your office has comments to make regarding the content of the response, please contact myself or Jim Smith, Administrator of Mineral Resource Development and Reclamation Program, as soon as possible. A written sign-off letter from the Division of Wildlife Resources is necessary before the decision document and permit can be finalized.

Sincerely,

Susan C. Linner
Reclamation Biologist/
Permit Supervisor
