Salt Lake City, UT 841801203

Dear Mr. Braxton:

SUBJECT: TENTATIVE CHANNEL DESIGN FOR FINAL RECLAMATION

A program has been worked out with our consultants, Sergent, Hauskins and Beckwith, to get the required data and design the stream channel based on the six points listed in your June 4, 1985 letter. We believe that the required data can be collected and a design completed by the end of July. A submittal of this information to the regulatory authorities will be done in early August.

A small drilling program will be conducted June 22 - 23, 1985. Samples will be collected for strength testing to aid in final slope design.

Sincerely,
SOUTHERN UTAH FUEL COMPANY
