Dear Mr. Braxton:

Enclosed are seven copies of Sergent, Hauskins & Beckwith's report on the final reclamation aspects for the East Spring Canyon intermittent stream. This submittal should be considered under the experimental practices provisions of OSM, 30 CFR 785.13. Section 6 of the report discusses the applicability of experimental practices to the East Spring Canyon final reclamation. Please consider this report to be an addendum to Volume 8 of SUFCo's PAP. When it is deemed acceptable, the report can be incorporated into the PAP to replace previous schemes for reclamation. This approach was used based on past difficulties in arriving at an acceptable final reclamation plan.

Sincerely,
SOUTHERN UTAH FUEL COMPANY

Ken Payne
V. P. & General Manager
