Dear Mr. Sorensen:

RE: Approval of MRP Amendments, Electrical Substation Upgrading and Extension to the Previously Approved Coal Pad Storage Facilities, Convulsion Canyon Mine, ACT/041/002, #3 and #4, Sevier County, Utah

The Division has completed its review of Southern Utah Fuel Company's (SUFCO) latest submission dated June 21, 1985 for the amendments outlined above.

This submittal addresses the remaining concerns which the Division had outlined in separate letters, both dated June 12, 1985. The Division is prepared to approve both plans as submitted to date and the operator is hereby directed to proceed with construction of the same. As a condition to this approval, the Division requests that SUFCO please submit an additional 10 copies of the revised text and maps so that all appropriate state and federal agencies permit applications may be brought up to date. If possible, please provide these copies to the Division by August 5, 1985.
