3 Triad Center, Suite 350
Salt Lake City, UT 84180-1203

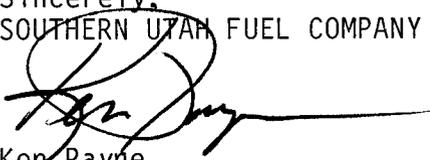

Dear Lowell:

I appreciate the time you took to talk with me on the telephone yesterday. As we discussed, we need temporary storage space for the dirt material excavated to allow construction of the retaining wall where our run-of-mine stock pile will be located. We would like to use a large area located along the paved road just a few hundred yards from our gate area. This area is on the north side of the road in Convulsion Canyon between the pavement and cut hillside. We will protect runoff leaving the area from sediment loading by installing silt fences in the nearby ditches.

The construction of the wall should take no longer than two months and the area along the road should no longer be needed after mid-January. We will ensure that it is fully restored to its present condition. We have contacted the Forest Service regarding the manner as well and they have no objection.

Thank you for your assistance in this temporary need.

Sincerely,
SOUTHERN UTAH FUEL COMPANY

Ken Payne
