Dear Mr. Payne:

The Bureau of Land Management (BLM) received and reviewed your miner modification and two-year projection map dated November 18, 1988. The modification and maps illustrate retreat mining in the 5E submains will begin August 1989. Additionally, the block of coal west of, and adjacent to 3 North is planned to be mined from August through November 1989. First mining will be used in 3 North area.

We have determined that the modification satisfies the requirement for achieving maximum economic recovery (MER) in accordance with 43 CFR 3482.2(a)(2). Therefore, the proposed changes to the mine plan are approved with the revisions depicted on the attached map.

Should you have any questions, please contact Brent Northrup, Chief Solid Minerals, 259-6111 or Stephen Falk, Mining Engineer at 637-4584.

Sincerely yours,
/s/ Kenneth V. Rhea
