 Salt Lake City, Utah 84180-1203

Dear Mr. Braxton:

As we discussed on the telephone today, Southern Utah Fuel Company is planning to start an office building expansion project in the near future. This expansion will consist of a 50 ft addition on the south end of our existing office building. This addition is estimated to cost \$72,000. No changes in drainage will be made.

The construction building that was located immediately south of the existing office building has been moved to the south of the ambulance garage along the east edge of the parking lot.

A tool room is also planned for the shop building. This tool room will consist of a 15 ft x 39 ft addition on the east side of the shop. This addition is estimated to cost \$17,500. No changes in drainage will be made.

Please approve these minor changes in the building layouts for Southern Utah Fuel Company's minesite.

Sincerely,  
 SOUTHERN UTAH FUEL COMPANY

Ken M. Payne,  
 Vice President and General Manager
